

BROKERS! IT'S TIME TO UP YOUR SELFIE GAME

At Hollard Health, we believe in the doing everything we can to support the health of our members. We *also* believe in supporting the health of our entire team, which means our brokers too.

Which is why, from today...

WE'RE GIVING YOU ACCESS TO THE HEALTHMOV APP!

HealthMov uses ridiculously smart technology to track, monitor and provide real-time feedback to make small changes each day that will make a HUGE impact to your long-term health. It is so intuitive that it can use info from a selfie to scan your facial features to measure your heartrate, breath rate, stress levels and BMI. This information is then collated to give you feedback, suggestions and, once activated, BIG rewards! Think of it as a personal trainer, health coach and mentor in your pocket!

THEN, LET'S TAKE IT TO THE NEXT LEVEL TOGETHER

Once you're taking the selfies, and doing the healthy things and exploring the App, you'll notice that there is a Rewards section that hasn't been activated...yet. Just to show you're fully onboard for your health journey AND for getting the amazing Hollard Health offering out there: once you get to \$100,000 in annualised premiums, we'll take you to the next level and activate those handsome Rewards. Who says getting healthier should be boring!

The Hollard Health team are using the App and are 100% behind it, but don't take our word for it, [Download HealthMov](#) and enter your email address for access to this amazing digital wellness tool.

Looking forward to seeing you on the App and working with you this year!

The Hollard Health Team
